

Thank you for the opportunity to submit my comment. If it were not for a little 5000 Watt AM college station in our area (KUOM, RadioK), I'd hear nothing about the local independent artists in town or the smaller venue shows. On top of that this station is compelled to go off the air at sunset due to an outdated statute. Please allow local and independent radio to continue to serve our communities. I've given up on the big guys, they only play the songs that MTV seems to hype.
